

Personal Commitment Against Prejudice

I believe in the equality of humankind and in the equal rights of every individual.

I believe it is wrong to be prejudiced or cruel, physically or emotionally, to any person or group of people.

I will not intimidate, be cruel or act superior to others.

I will honor and support the equal right of everyone.

I will look deep into myself to see that I uphold this promise in every way.

I will work to educate others so they will not be prejudiced or cruel.

I will act to stop prejudice and cruelty every time I am aware that it is happening or is about to happen.

I will alert professionals if I know others are in danger.

I have the courage to take this stand.
